TRASCINA L'IMMAGINE

Hi!

In this letter, I want to tell you about one of my best friends.
His name is Robert.
I know him for six years.
I met him at school, in the first grade.
We met because we got to be classmates.
My friend has a long and brown hair, brown eyes, it is tall and has a good physical form. He is crazy, funny, smart and a very good friend, but fastidious also.
We like pasta, pizza, basketball, soccer, swimming, to listen to music and to play on computer.
He dislikes the lie and to skate.
We play basketball together.
It's a very good friend and I recommend him, if you have something in common with him.
How does your friend look like?
What's your friend like?
I hope you will answer me soon!

With kindness, Alin.

I like Silca because he is friendly, generous, intelligent and polite. I don't dislike Silca because he is a funny and people are not perfect. At school break I talk to him about books and different things.
Silca is a fastid person and a good friend that we are talking with your friend.
I replied I write to you again. I look forward to get your letter!

With friendly,
Lara

I met Raluca at school in the first year and we stayed together in a school camp and we shared the same room. We understood each other well.
Raluca is very intelligent, but she is a little bit afraid. She wears glasses and she is friendly.
Even if she's sometimes grumpy, I enjoy her.
She likes to read and she likes to play. She doesn't jump very and she writes out her pages. She doesn't like people who depend on phones. She likes shopping and fashion. She doesn't have to paint very nice and she is going to painting competitions. Right now we go in the park and she play with her dog.
She is a great friend. I will not leave her unless she wants! I respect her decisions.
Have you get along with your friend?
I have to find time to write your letter.
